AIR PURIFIERS

Clean the Air We Share

The rapid global spread of COVID-19 has increased our urgency to protect ourselves and each other. Multiple studies have demonstrated that when it comes to virus transmission, the airborne threat is real and cannot be ignored.

Healthy and safe facilities matter now, more than ever. We must protect ourselves in shared environments against future viral outbreaks.

A complete hygiene solution should consist of 3 essential components - washing your hands, sanitizing surfaces and cleaning the air for protection against person-to-person virus transmission.

Fellowes® AeraMax® Professional

COMMERCIAL GRADE
AIR PURIFIERS

Our air purifiers provide maximum protection by removing up to 99.97% of all airborne contaminants, including airborne viruses*. Specifically designed to provide 24/7 smart air cleaning for shared air environments using proven filtration technology.

The Invisible becomes visible with PureView™ technology, a display that allows occupants to see the difference as they feel the difference.

Trendway >

Provided by Indoff - Silicon Valley and North Denver Urban Branches

EFFECTIVE

Proven Performance

Four stage filtration process to effectively clean the air.

SMART

Patented, Responsive Technology

Dual self-regulating laser sensors and display to feel and see the difference.

INTEGRATED

A Seamless Addition

Seamlessly integrates into your facility's environment.

RELIABLE

Commercial Grade Durability

Constructed with superior components, high-grade filters and reinforced housing.
